Dear Honorable Mayor and City Council Members:

The Comprehensive Annual Financial Report for the City of Troy, Michigan for the year ended June 30, 2004 is hereby submitted. The report represents a comprehensive and detailed picture of our financial transactions during fiscal year 2003-04 and the financial condition of the various funds as of June 30, 2004. This report has been prepared by a team of City staff led by the Assistant City Manager /Finance and Administration. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

In 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, which significantly changed the contents and format of municipal financial statements. GASB Statement No. 34 (GASB No. 34) was developed to promote comparability between various units of government and to demonstrate the operational, as well as the fiscal, accountability of each municipality. Prior to GASB No. 34, municipalities reported only on the fund basis. This demonstrated to the financial statement user that the municipality met its responsibility to the public and all legal requirements in the short term, usually a year or a budget cycle. With the adoption of GASB No. 34, a municipality must also include full accrual government-wide financial statements. The purpose of these statements is to demonstrate the operational accountability of the municipality. Operational accountability refers to the government's responsibility to assure that it is currently meeting, and can continue to meet, operational objectives into the foreseeable future. The accompanying report is the second issued by the City of Troy in compliance with the new format requirements of GASB 34.

A Management's Discussion and Analysis Report, as well as entity-wide, full accrual financial statements have been added to the front of the financial statement section. The fund statements have been altered to provide reporting under the "Major/Non-major Fund" concept. Reconciliation between the two presentations is included and the note disclosures have been expanded to provide appropriate information on both the entitywide and fund financial statements.

The information presented is accurate in all material respects. Financial data presented is designed to provide the reader with information to assist in determining both the longterm fiscal health of the City of Troy and the City of Troy's ability to meet obligations on a short-term basis.

As required by generally accepted accounting principles, these financial statements present the City of Troy and related component units. The individual component units are included in the City of Troy's reporting entity because of the significance of their Real Estate & Development, operational or financial relationships with the City of Troy.

The financial reporting entity includes all of the funds of the primary government (the City of Troy as legally defined). The criteria used in determining the reporting entity are consistent with current GAAP guidelines. Based on these criteria, the various funds of the City are shown in the Table of Contents and are included in this report. We have addressed all component units.

The City of Troy was incorporated in 1955 and has always operated under the Council-Manager form of government. The Mayor and six members of the City Council are elected to staggered, three-year terms. The City Manager is appointed by a majority vote of the City Council and is responsible for all administrative functions. The City provides a full range of municipal services. These services include police, fire, water distribution, wastewater collection, street maintenance, public improvements, planning, zoning, recreation and general administrative services.

The Comprehensive Annual Financial Report was prepared to meet the needs of a broad spectrum of financial statement readers and is divided into the following major sections:

<u>Introductory Section</u> – This section introduces the reader to the City of Troy and to this report. Included are: this transmittal letter with continuing disclosure reporting enhancements, the City's organizational chart, a list of principal officials, and a fund organization chart.

<u>Financial Section</u> – The independent auditor's report, management's discussion and analysis letter, government-wide financial statements, combined fund financial statements, component financial statements and notes to the financial statements are included here. These are the City's basic financial statements and provide an overview for readers who require less detailed information than is contained in the balance of this report.

Required Supplemental Information – This section contains schedules showing the funding progress of both the Employees' Retirement System and the Incentive Plan for Volunteer Firefighters.

<u>Statistical Section</u> – Although this section contains substantial financial data, these schedules differ from financial statements in that they present some non-accounting data, cover more than the current year, and are designed to reflect social and economic data, financial trends, and the fiscal capabilities of the City.

<u>Single Audit Section</u> - The City of Troy is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget's Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations.* Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included in the single audit section of this report.

### ~ECONOMIC CONDITION AND OUTLOOK

The economic condition of the City has remained fairly steady during these difficult times. Our unemployment rate is well below the national and state average.

Troy Metro Area* Michigan	1990 3.5% 7.6% 7.6%	2000 1.6% 4.3% 3.6% 4.0%	3.4% 8.2% 7.5% 5.7%
National	5.5%	4.0%	3.776

<sup>\*</sup>Metro Area includes: Lapeer, Macomb, Monroe, Oakland, St. Clair, and Wayne Counties

The growth in taxable value has slowed in recent years compared to the 1990s, which is expected of a more mature community. In 1990, our taxable value was \$2,931,850,960. By December 31, 2003, that value had grown to \$4,978,263,437, an increase of 69.8 percent. In Michigan, only the City of Detroit has a higher taxable value than the City of Troy. The Southeast Michigan Council of Governments (SEMCOG) estimates that Troy will experience employment and population increases well into the next century. However, in this era of competition for business retention and attraction, we need to advance a preferred future in which residents and businesses continue to aspire to locate here.

Other significant economic events occurring during the fiscal year included the following activities:

### **Major Initiatives**

Major initiatives, more often than not, span several years, and ours are no exception.

March 2004 saw the completion of the renovation/addition to our existing City Hall for enhanced Police and Fire Administration. The 70,000 square foot renovation/addition includes a state of the art dispatch center and an enhanced Emergency Operations Center.

The Sanctuary Lake Golf Course, Troy's second course, opened for play in July 2004. Located in Section 1, the northeastern most corner of Troy, this site is a former landfill that has been transformed into a community 18-hole links style golf course. By operating as a golf course, the facility is self-funding and a beautiful outdoor resource that many will enjoy. In addition to the course, Sanctuary Lake also boasts a driving range that has been open since August 2003.

In May 2004 the new Fire Station #4 opened. The 9,000 square foot facility is located on the north side of Big Beaver Road, between Coolidge and Crooks. Fire Station #3's award-winning architecture complements the other buildings on the Big Beaver corridor.

Major road construction projects were active on Maplelawn, Crooks, to Maple; Long Lake Road, Carnaby to Dequindre.

We still maintain our tradition of strong financial management policies within City government, as evidenced by being the only municipality in the state of Michigan with a population greater than 50,000 having a "AAA" bond rating. Our tax base growth has slowed and we are at a point where it is imperative to focus on redevelopment efforts. Doing so will improve our fiscal strength, not only for the Troy City government, but also for the community.

# Department Feature - City Treasurer's Office

The Treasurer's Office is charged with the responsibility of overseeing the proper receipting and safeguarding of all city funds and to protect the assets of the city through sound loss prevention practices. Its major functions are to collect, post, disburse, and settle the advalorem and industrial facilities tax roll revenues; collect and post water/sewer account payments; bill, collect and post special assessments for paving, water, sewer, drains, and sidewalks; collect and post miscellaneous invoices and other receipts; and establish and maintain first class customer service.

This office processes over \$200 million in tax roll revenues to distribute to several taxing entities including the State of Michigan, Oakland and Macomb Intermediate School Districts, seven local school districts, Oakland County, the Brownfield Redevelopment Authority, the Downtown Development Authority (DDA), the Local Development Financing Authority (Smart Zone), and the city. Approximately \$30 million or about half of the total revenue source for the city's General Fund comes from the annual tax collection.

Another significant activity is the collection and processing of over \$20 million in payments for water/sewer utilities and special assessments for paving, water, sewer, drains, and sidewalks. Over 27,000 water/sewer bills are generated and processed each quarter.

In its objective to increase efficiency and decrease costs, the Treasurer's Office strives to reduce repetitive manual work through automation by making the following payment methods available.

- On-line and Interactive Voice Recognition (IVR) or by phone credit card option for taxpayers (about 180 credit card transactions in 2003)
- Lockbox payments for tax and water bills
- Electronic tax payment files from mortgage companies
- Automatic debit water bill payment option (approximately 4,000 participants)

Of the 64,500 tax payments made in the 2003 tax season, about 39% were made through the lockbox option, 21% were made through electronic payment files from mortgage companies, and the remaining 40% were hand-processed by staff.

When payments are made directly to the banking institution's lockbox or auto-debited from customer accounts, revenues are deposited directly to the city's accounts making funds available sooner. And, since these automated payment methods reduce the amount of time it takes to sort, open and process the mail payments, the city also was able to make a reduction in personnel.

This office also uses available technology for information resource management.

- Electronic file transfers of tax and water data
- Internet access for tax information

The electronic interchange of data with mortgage companies and financial institutions has greatly enhanced the flow of information. The capability of creating an entire season's tax file information and with a click of a button sending the information to a mortgage company for parcel and payment verification or to the printer to print tax bills is both time and labor efficient.

The added availability of tax information on the Internet serves to reduce the number of related calls in the office and provides 24/7 access to this information.

The Treasurer's office takes pride in providing first class customer service to this community's residents, businesses, and visitors. It remains focused on the city's goals and objectives to create an efficiently operated government responsive to the needs of the people it serves. Furthermore, it is continually seeking to implement positive improvements each and every year.

### ~FINANCIAL INFORMATION

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

### Single Audit

As a recipient of Federal, State, and local financial assistance, the City is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management and the independent auditors of the City.

As a part of the single audit process, tests are made by the auditors to determine the adequacy of the internal control structure, including that portion related to Federal financial assistance programs, as well as to determine that the City has complied with the applicable laws and regulations.

# **Budgeting Controls**

The object of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council.

Activities of the General, Special Revenue, Debt Service, and Capital Projects Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by function within an individual fund.

The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Outstanding encumbrances at year-end for the Capital Projects Fund are recorded as a reservation of fund balance and are re-appropriated as part of the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

# **General Government Functions**

Generally accepted accounting standards require that management provide a narrative introduction, overview and analysis to accompany these basic financial statements in the form of a Management's Discussion and Analysis (MD&A) letter.

This letter of transmittal is designed to compliment the MD&A and should be read in conjunction with it. The City of Troy's MD&A can be found immediately following the report of the independent auditors. Since the MD&A focuses on the government-wide financial statements, the balance of this letter will be directed at the fund or activity level.

The General Fund receives all City of Troy revenues not designated for special uses by statutes or the City Charter and accounts for most of the services provided to residents.

The following schedule presents a summary of all General Fund revenues for the fiscal year ended June 30, 2004 and the amount of percentage increase and decrease in relation to prior year revenues.

REVENUE SOURCE	AMOUNT	PERCENT OF TOTAL	INCREASE (DECREASE) FROM 2003
Property Taxes Licenses and Permits Federal State County Charges for Services Fines and Forfeits Investment Income	\$30,985,387 1,649,985 100,354 7,295,363 162,365 5,973,055 960,250 229,875	56.7% 3.0 .2 13.4 .3 10.9 1.8 .4	\$586,109 200,982 (112,783) (453,801) 19,915 310,613 63,417 (5,316) 1,152,969
Other Subtotal Transfer from Other Funds TOTAL	2,128,349 \$49,484,983 5,109,528 \$54,594,511	3.9 90.6 9.4 100.0%	\$1,762,105 532,384 \$2,294,489

Overall General Fund revenues increased 4.4 percent from the prior year. Property taxes in the General Fund increased by 1.9 percent due to new construction and a slight valuation adjustment for existing property. State sources decreased for the second year in a row this year by 5.9 percent due to a decrease in total dollars distributed, as a result of downturn in the State's economy in particular, sales tax revenue and the State budget-balancing problem.

Licenses and permits were up 13.9 percent due to an increase in fees. Fines and forfeitures were up 7.1 percent due to an increase in drug forfeiture proceeds. Charges for services revenue increased by 5.5 percent primarily due to utilization of our new Community Center.

Investment Income was down 2.3 percent due to the downturn in the national economy and the corresponding reduction of interest rates paid by the fixed income market.

Other revenue is up significantly due to the recognition of revenue from the Sewer Fund as an operating revenue versus a transfer from Other Funds.

The following schedule presents a summary of the General Funds expenditures for the fiscal year ended June 30, 2004 and the percentage increase and decrease in relation to prior year expenditures.

EXPENDITURES	AMOUNT	PERCENT OF TOTAL	INCREASE (DECREASE) FROM 2003
General Government	\$8,617,605	15.5%	\$438,328
Police	20,543,113	37.0	705,319
Fire	3,843,651	. 6.9	263,793
Building Inspection	1,926,514	3.4	114,810
Roads and Streets	4,678,298	8.4	(252,525)
Engineering	2,766,755	5.0	166,564
Parks and Recreation	7,976,960	14.4	557,481
Library and Museum	4,547,590	8.2	73,315
Library and made and		· · · · · · · · · · · · · · · · · · ·	
Subtotal	\$54,900,486	98.8	\$2,067,085
Transfer to Other Funds	668,000	1.2	668,000
TOTAL	\$55,568,486	100.0%	\$2,735,085

<u>Expenditures</u> – Total General Fund expenditures increased by 5.2 percent. All bargaining units received contractual increases this past year on average of 3.3 percent and healthcare costs were up approximately 6 percent. The infrequency of snow and ice removal events accounted for the large decrease in road and streets expenditures. The transfer to Other Funds accounts for the initial transfer of \$668,000 to the Budget Stabilization Fund.

### General Fund Balance

The fund balance of the General Fund decreased by \$973,975 to a balance of \$20,452,755. Of the \$20,452,755 fund balance, \$3,597,139 is reserved for such items as tax appeals, insurance, inventory and prepaid items; \$5,580,228 is unreserved but designated for improvements and maintenance; \$3,099,430 is unreserved but designated for the 2004-05 budget, leaving \$8,175,958 as unreserved and undesignated. The \$8,175,958 represents 13.8 percent of our 2004-05 General Fund budget. This amount is within the acceptable range of 10 percent to 17 percent and is considered adequate to provide funds for unforeseen future negative events.

# Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes. The Special Revenue Funds of the City include:

<u>Downtown Development Authority Fund</u> – The Authority generates revenue from property value increases within the district compared to the initial taxable value established in 1993. These funds are used for the purpose of providing for the construction and financing of necessary improvements to prevent further deterioration of the development area while preserving and promoting economic growth.

<u>Major Street Fund</u> – Gas and weight tax revenues received in this fund from the State of Michigan are used for repairs, maintenance, snow and ice removal, and construction of all streets classified as "major" within the city. The gas and weight taxes generated \$3,751,867 compared to \$3,479,968 last fiscal year.

<u>Local Street Fund</u> – Gas and weight taxes as well as a transfer of funds from the Major Street Fund finance the repairs, maintenance, snow and ice removal, and construction of all streets classified as "local" within the city.

<u>Refuse Fund</u> – This fund has been established to account for property tax revenues restricted for rubbish and garbage collection and service charges for recycling.

<u>Community Development Block Grant</u> – This fund accounts for grant revenues from the Department of Housing and Urban Development to be used for residential and other capital improvements. The major activities in this fund include senior minor home chore program and infrastructure improvements.

<u>Cemetery Perpetual Care Fund</u> — This fund invests the proceeds from the sale of burial plots and utilizes investment income to operate and maintain City-owned cemeteries.

<u>Budget Stabilization Fund</u> – This fund was established in 2004 for the purpose of: a) covering any General Fund deficit; b) to prevent a reduction in the level of public services; c) to cover expenses arising because of a natural disaster.

### **Enterprise Operations**

The City operates five separate enterprise operations: Water Fund, Sanitary Sewer Fund, Aquatic Center Fund, Sylvan Glen and Sanctuary Lake Golf Course Funds.

The Water Fund operating revenues amounted to \$10,897,059, resulting in a decrease of \$258,334 from last year. Operating expenses totaled \$10,630,027, an increase of \$456,530 from last fiscal year.

The Sanitary Sewer Fund generated \$9,710,263 in operating revenues compared to \$8,973,121 last fiscal year. Operating expenses totaled \$10,168,039 compared to \$8,778,461 last fiscal year. During the 2003-04 budget, rates were reviewed by City Council and were adjusted for the water and sewer utility. These rates are reviewed annually during budget time to ensure proper funding for operations maintenance and improvements to the system.

The Aquatic Center continues to operate at a loss. The operating loss of \$173,869 compares to a net loss of \$70,178 last fiscal year. The City has taken measures to increase usage and continues to look at ways to reduce the net loss.

The Sylvan Glen Golf Course Fund ended the year with a net income of \$58,119. This amount compares to a net income of \$32,570 last fiscal year.

The Sanctuary Lake Golf Course Fund ended the year with a net income of \$34,193.

### Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the government, on a cost reimbursement basis.

<u>Compensated Absences Fund</u> – This fund accounts for the charges to other departments based on sick and vacation accruals. The expenses of accumulated sick pay and vacation pay are then recorded in this fund.

<u>Unemployment Compensation Fund</u> – This fund accounts for the charges to other departments and the expenses to provide unemployment compensation insurance.

<u>Custodial Services Fund</u> – This fund charges other departments on a square footage basis to account for the custodial services and maintenance provided to all City-owned buildings.

<u>Information Technology Fund</u> – This fund accounts for charges to other departments based on the number of workstations to cover the expenses for providing computer services, including support, training and replacement.

<u>Motor Equipment Fund</u> – The rental charges of City-owned equipment to other City departments are accounted for in this fund. The fund provides maintenance, insurance and replacement of all City-owned vehicles.

<u>Workers' Compensation Fund</u> – This fund charges departments a percentage of payroll based on premiums established by our provider to account for pooled insurance expenses.

### Fiduciary Funds

Fiduciary Funds are established to account for asserts hold by the governmental unit in a trustee capacity or as an agent for individuals, private organizations, and other governmental units and/or funds.

<u>Pension Trust - Employees' Retirement Fund - This fund is used to account for the accumulation of resources for pension benefit payments to qualified general and public safety employees.</u>

The Employees Retirement Fund reported end-of-the-year net assets held in trust for pension benefits of \$160,858,808 compared to the beginning amount of \$146,350,090. As of December 31, 2003, the fund is 113.5 percent funded, including post retirement healthcare.

<u>Pension Trust – Discretionary Fire Incentive Reserve Fund</u> - This fund is used to account for accumulations of resources for incentive payments to qualified volunteer firefighters.

<u>Agency Fund</u> - This fund is used to account for taxes collected on behalf of other governmental units.

### **Component Units**

Component units, as defined by GASB No. 14, are so classified due to their relationship with the primary government relative to financial accountability of the reporting agency.

<u>Brownfield Redevelopment Authority</u> - This fund was established in 2002 to account for projects that will improve environmentally distressed areas within the City of Troy.

### **Debt Administration**

At June 30, 2004, the City had a number of debt issues outstanding. These issues included \$76,868,315 being serviced by Governmental Funds and \$12,000,000 by Proprietary Fund types. All three major rating agencies (Fitch Ratings, Moody's and Standard and Poor's) gave the City a "AAA" rating for general obligation bonds.

### Cash Management

The City complies with Public Act 20 of 1943 (as amended) of the State of Michigan in its cash management activities.

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, commercial paper, obligations of the U.S. Treasury and government pooled investment accounts. The Pension Trust Fund investment portfolio also includes corporate bonds, stocks and mutual funds.

The City administers an aggressive cash management and investment program. The following investment objectives are utilized in the management of City funds: the primary objective is the preservation of capital and the protection of investment principal; provide sufficient liquidity to meet the City's projected operating and capital requirements; control risk by diversifying investments and maximize the return of the portfolio while avoiding unreasonable investment risk.

### Tax Rate Limitations

The City Charter provides tax rate limitations for general operations. In addition, the City of Troy may levy taxes in excess of the Charter limitation for refuse collection and debt service.

PURPOSE	AUTHORITY	RATE PER \$1,000 OF TAXABLE VALUE
General Operating	City Charter	\$10.00*
Refuse Collection and Disposal	Act 298, P.A. of Michigan 1917 as Amended, Article IX, Section 56 of Michigan Constitution	3.00*
Debt Service	City Charter	Amount
		Necessary for
		deht navment

<sup>\*</sup>The maximum permitted general operating and refuse collection and disposal per Headlee Amendment of the Michigan Constitution for fiscal year 2004 was 8.5307 and 2.5592, respectively.

### Risk Management

The City has entered into a public entity risk pool with other Michigan units of government by joining the Michigan Municipal Risk Management Authority for its general liability insurance, including auto and public official liability as well as property damage insurance.

The City has also entered into a joint agreement with other Michigan units of government by joining the Michigan Municipal Workers' Compensation Fund for its workers' compensation insurance.

### ~OTHER INFORMATION

### Independent Audit

The City Charter and State statutes require an annual audit of all accounts of the City by certified public accountants. The accounting firm of Doeren Mayhew, CPAs, was selected by the City Council. The City received an "unqualified opinion" from Doeren Mayhew, which is the best opinion that an organization can receive on its financial statements.

It indicates that the auditor's examination has disclosed no conditions that cause them to believe that the financial statements are not fairly stated in all material respects.

Additionally, during the current year an audit was performed in accordance with the requirements of the Single Audit Act Amendments of 1996 (P.L. 104456). The auditor's reports related to the single audit are issued as a part of this report.

### Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Troy, Michigan for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2003.

This was the seventh consecutive year that the City has achieved this prestigious award. In order to be awarded a certificate of achievement, a government must publish an easily readable and efficiently organized *Comprehensive Annual Financial Report*. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A certificate of achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the certificate of achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. The City has also received the GFOA *Distinguished Budget Presentation Award* and the *Award for Outstanding Achievement in Popular Annual Financial Reporting*.

# Acknowledgments

The preparation of the *Comprehensive Annual Financial Report* on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department.

Each member of the department has our sincere appreciation for the contributions made in preparation of this report.

Respectfully/submitted,

John Szerlag, City Manager

John M. Lamerato,

Assistant City Manager/Finance & Administration

# Independent Auditor's Report

To the Honorable Mayor and City Council of the City of Troy, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Troy, Michigan as of June 30, 2004, and for the year then ended which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Troy, Michigan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Troy, Michigan as of June 30, 2004, and the respective changes in financial position and cash flows where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 3 through 10, 21 through 23 and 84 through 91, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the City of Troy, Michigan's basic financial statements. The introductory section, combining and individual fund financial statements and the accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of the City of Troy, Michigan. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole. The statistical section on pages 114 through 132 is not a required part of the basic financial statements, and we did not audit and do not express an opinion on such information. The purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements of the City of Troy, Michigan. The combining and individual fund financial statements and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with Government Auditing Standards, we have also issued our report dated September 17, 2004, on our consideration of the City of Troy, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grants and other matters. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

DOEREN MAYHEW

September 17, 2004 Troy, Michigan

This section of the City of Troy's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year that ended on June 30, 2004. Please read it in conjunction with the transmittal letter, which begins on page VI and the City's financial statements, which begins on page 11.

# Financial Highlights

- The City's combined total net assets are reported as \$340.6 million for the fiscal year ended June 30, 2004, compared to \$315.4 last fiscal year.
- During the year, the City's expenses were \$10.7 million less than the \$90.4 million generated in taxes, charges for services, and other revenues for governmental programs, after the reconciliation of \$13.3 million of prior year's construction in progress that was not reported as capital assets prior to GASB 34.
- In the City's business-type activities, revenues generated \$23.8 million, while expenses totaled \$22.6 million.
- The total cost of all of the City's programs, including governmental activities and business-type activities was \$89.0 million.
- Total net assets increased \$25.2 million.

### Overview of the Financial Statements

This annual report consists of a series of financial statements. The first two statements, the *Statement of Net Assets* and the *Statement of Activities*, provide information about the activities of the City of Troy as a whole and present a longer-term view of the City's finances. The remaining statements, including governmental funds, proprietary funds, and fiduciary funds focus on how City services were financed in the short term, as well as what remains for future spending. Fund financial statements report the City of Troy's operations in more detail than the government-wide financial statements.

The financial statements include notes that explain and provide more detailed data about some of the information found in the financial statements. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

In addition to these required elements, we have included a section with combining statements that provide details about our non-major governmental, business-type, internal service, and fiduciary funds, each of which are added together and presented in single columns in the basic financial statements.

# **Government-wide Statements**

The government-wide statements report information about the City of Troy as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the change in the difference between the City's assets and liabilities. This change in net assets is an indicator of whether the City's financial health is improving or deteriorating. In order to assess the overall health of the City, you need to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's roads and other infrastructure.

The government-wide financial statements of the City of Troy are divided into two categories:

- Governmental activities Most of the City's basic services are included here, such as police, fire, public works, parks and recreation, and general administration.
   Property taxes, state shared revenue, and charges for services finance most of these activities.
- Business-type activities The City charges fees to customers to help cover the cost
  of certain services it provides. The City's business-type activities include water,
  sanitary sewer, Aquatic Center, and two public golf courses.

## Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

The City of Troy has three types of funds:

 Governmental funds – Most of the City's basic services are included in governmental funds, which focus on how cash, and other financial assets that can readily be converted to cash, flow in and out. The funds also show the balances left at yearend that are available for spending.

The governmental fund statements focus on a short-term view rather than the long-term focus of the government-wide statements, so additional information is provided after the governmental fund statements that explain the relationship or differences between the fund and government-wide statements.

- Proprietary funds Proprietary funds are used to report services where the City charges customers a fee for services rendered. Proprietary funds provide both longand short-term financial information. The two types of proprietary funds are enterprise and internal service funds.
  - Enterprise funds and business-type activities are the same, but the fund statements provide more detail and additional information such as cash flows.
  - Internal Service funds are used to report activities that provide supplies and services for the City's other programs. Examples of internal service funds would be Motor Equipment and Information Technology.
- Fiduciary funds The City of Troy is trustee for its employee pension plans. The
  City is responsible for ensuring that the assets reported in these funds are used for
  their intended purposes. All of the City's fiduciary activities are reported in a
  separate statement of fiduciary net assets and a statement of changes in fiduciary
  net assets. These activities are excluded from the City's government-wide financial
  statements because the City cannot use these assets to finance its operations.

# The City of Troy as a Whole

The City's combined total net assets for the fiscal year ended June 30, 2004 is \$340.6million. Business-type activities comprise \$141.3 and governmental activities make up \$199.3 of the total net assets.

Combined unrestricted net assets, the part of net assets that can be used to finance day-to-day operations, is reported as \$114.6 million. \$81.4 million is the amount of unrestricted net assets reported for the City of Troy's governmental activities.

The table below shows the comparison of total assets, total liabilities, and total net assets (in millions of dollars) in a condensed format as of June 30, 2004 to the prior year.

	¥.00.5	#17J.3	\$141.3	\$140.1	\$340.6	\$315.4

Total assets increased by \$4.1 million during the year, made up of a decrease of \$8.3 million in governmental activities and a increase of \$12.4 million in business type activities. The increase in capital assets was due primarily to the completion of several bond projects.

Total liabilities decreased by \$21.2 million primarily due to the reduction in long-term debt through annual debt payments and the defeasement of the 1995 Michigan Transportation Fund bond and the 2000 Community Center and recreational facilities bond. Other liabilities decreased by \$8.4 million compared to the prior year.

Net assets show increases in investments in capital assets net of debt of \$33.4 million and unrestricted net assets increased by \$18.9 million. Restricted net assets decreased by \$27.1 million due to the completion of construction projects and the reduction in funds held for debt service.

The following table shows the comparison of the change in net assets (in millions of dollars) as of June 30, 2004 to the prior year, in a condensed format:

Net Assets - End of Year	\$199.3	\$175.3	\$141.3	\$140.1	\$340.6	\$315.4

# **Governmental Activities**

The City of Troy's total governmental revenue is reported at \$90.4 million, an increase of \$8.4 million from the prior year. This was primarily attributed to property tax revenues, which increased due to new growth and Consumer Price Index adjustments, as well as the recognition of revenue that was previously classified as deferred under the modified accrual accounting method.

State-shared revenue reflects a \$.5 million reduction due to the State of Michigan budget problems.

Expenses decreased by \$7.2 million due to the recognition of capital assets that were previously classified as construction in progress prior to GASB 34. Without this recognition of expenses would have increased by \$6.1 million.

The \$6.1 million increase is spread over several divisions with no one division having any extraordinary increases. The public safety division would have increased by \$1.0 million prior to the capital asset adjustment.

During the year the City continued meeting the actuarial required contributions for the defined benefit pension system and discretionary for incentive reserve fund as well as prefunding retiree healthcare benefits. This is important for the City because future taxpayers should not be required to fund benefit payments that were earned in the past.

### **Business-type Activities**

The City of Troy's business-type activities consist of water, sanitary sewer, Aquatic Center, and golf courses. Water and sanitary sewer services are provided to City residents through the Detroit water system and sewerage treatment plants. Revenues for business-type activities were approximately \$22.3 million. Items include water sales (\$10.1 million), sanitary sewer service charges (\$9.7 million), and \$1.3 million from the operations of the City's two golf courses.

# The City of Troy's Funds

Analysis of the City of Troy's major funds begins on page 14, following the government-wide financial statements. The fund financial statements provide detailed information about the most significant funds, not the City of Troy as a whole. Funds are created to help manage money for specific purposes, as well as to show accountability for certain activities, such as specific property tax millages and restricted receipts from Federal and State sources.

The City of Troy's major funds for 2004 include the General Fund, Major Streets, Local Streets, Capital Projects, General Debt Service, Water, Sanitary Sewer, and Sanctuary Lake Golf Course Fund. The General Fund pays for most of the City of Troy's governmental services.

# General Fund Budgetary Highlights

Over the course of the year, City Council amended the budget to take into account events during the year. The most significant was to recognize an increase in charges for Services – Sales, and to provide additional funding for fire prevention. Revenue received for the fiscal year was within \$.1 million of the budgeted amount.

A decrease of 5.9 percent in State funds received was offset by an increase of 5.5 percent in the amount the City charges for services. Overall expenses for the City were 4.4 percent or \$2.6 million less than the budgeted amount due to a conservative spending policy, delays in filling vacant positions, and reduction of cost of certain insurances due to rebidding, and reduction in benefit levels.

# Capital Asset and Debt Administration

At the end of 2004, the City of Troy had \$304.1 million invested in a broad range of capital assets including land, buildings, police and fire equipment, water and sewer lines, roads, sidewalks, and other infrastructure.

Additional information about the City's capital assets is presented in Note 1 and Note 5 to the financial statements.

The City of Troy's debt rating is excellent. We maintain a AAA by Fitch Ratings, Moody's, and Standard and Poor's. The City of Troy's bond indebtedness totaled \$88.9 million at June 30, 2004. Additional information about the City's long-term debt can be found in Note 8 to the financial statements.

# **Current Economic Events**

The City of Troy's budget for 2005 calls for a freeze on property tax rates. These rates have remained the same or lower since July 1, 1996. Property taxes make up approximately 55 percent of our General Fund budget. Because of the impact of Proposal A, State of Michigan budget woes and interest rate climate, the City of Troy is utilizing a portion of our undesignated fund balance to balance the budget. The statewide tax reform act limits growth in taxable value on any individual property to the lesser of inflation or five percent. Because some properties increase in value by less than inflation, the mathematical result of this is that the total taxable value for the City of Troy will grow less than inflation before considering new property additions. With conservative budget forecasting of revenues and realistic expenditure estimates, we hope to limit the use of fund balance.

State shared revenue payments decreased by \$517,237 this past year. When comparing this amount to the amount we received two years ago, we are receiving \$1.2 million less. The State is still experiencing financial woes so we have adjusted our revenue forecast to reflect the State's economy, and the likelihood of future reductions.

The City purchases its water and sewer services from the City of Detroit. Historically, we have passed along the full water and sewer rate increases to our customers. The City's rate structure enables us to provide water and sewer service to our citizens as well as pay for operations, maintenance and improvements to the system.

The City still prides itself on having one of the lowest combined water and sewer rates of any southeastern Michigan community.

# **Contacting the City of Troy's Management**

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the City of Troy's financial condition.

If you have questions about this report or need additional information, we welcome you to contact the administrative offices at City Hall, 500 W. Big Beaver, Troy, Mi 48084. Additional information can be obtained at the City of Troy's web site, <a href="https://www.troymi.gov">www.troymi.gov</a>.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2004

Net change in fund balances - total governmental funds	\$	(13,820,213)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is		
the amount by which capital outlays exceed depreciation in the current period		20,740,324
Revenues in the statement of activities that do not provide current		
financial resources are not reported as revenues in the funds		4,405,797
Bond proceeds provide current financial resources to governmental		
funds, but issuing debt increased long-term liabilities in the		
statement of net assets. Repayment of bond principal is an		
expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		
This is the amount by which proceeds exceeded repayments		12,872,500
Internal Service Funds are used by management to charge the costs of		
certain activities, such as insurance to individual funds. The net		
revenues (expenses) of the Internal Service Funds is reported with		(475.005)
governmental activities	_	(175,825)
Change in net assets of governmental activities	\$	24,022,583

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

### Note 1 - Summary of Significant Accounting Policies

The financial statements of the City of Troy, Michigan have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The following is a summary of the significant accounting policies:

#### Reporting Entity

The City of Troy, Michigan was incorporated in 1955, and was formerly known as Troy Township since it was organized in 1821. The City is governed by an elected mayor and six-member council.

As required by generally accepted accounting principles, these financial statements present the City of Troy and its component units, entities for which the government is considered to be financially accountable.

#### Component Units

Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government. Discretely presented component units are also legally separate entities, but are not in substance part of the government operation. The City of Troy has one component unit, the Brownfield Redevelopment Authority, which meets the criteria for discretely presented component units. The Brownfield Redevelopment Authority is reported within the component units column in the combined financial statements. The Authority is also reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City. The purpose of the Brownfield Redevelopment Authority is to provide assistance for the redevelopment of abandoned, idled, or under-utilized industrial or commercial properties which are complicated by real or perceived environmental contamination. Each blended component unit reported herein has a June 30th year end.

Included within the reporting entity are the Troy Municipal Building Authority and the Downtown Development Authority. The City feels that the authorities meet the minimum requirements to be considered a blended component unit. The governing body of these authorities are appointed by City Council. Their budgets and any bond issuance authorizations also are approved by the City Council and the legal liability for any general obligation debt remains with the City. The purpose of the Downtown Development Authority is to issue bonds and use tax increment financing in the accomplishment of specific Downtown Development improvements to City-owned facilities and infrastructure, which are contained in the locally adopted development plan. A separate audit report for the Downtown Development Authority and the Brownfield Redevelopment Authority is prepared annually and available at the Finance Department of the City of Troy located at 500 West Big Beaver Road, Troy, Michigan 48084.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### Component Units - Continued

The purpose of the Troy Municipal Building Authority is to issue bonds for City-owned facilities and infrastructure, which are limited tax full faith and credit general obligations of the City.

#### Basis of Presentation - Government-Wide Financial Statements

The statement of net assets and the statement of activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the Governmental Accounting Standards Board Statement No. 33.

The statement of net assets and the statement of activities display information about the City as a whole. The statements include all funds of the primary government and its component unit, except for its Fiduciary Funds. Those funds are reported in the statements of fiduciary net assets and changes in fiduciary net assets.

The statement of net assets and the statement of activities are presented to distinguish between governmental and business-type activities of the City. Governmental activities are financed through taxes, intergovernmental revenues and other non-exchange revenues. These activities are reported in Governmental and Internal Service Funds. Business-type activities are financed by fees charged to external parties for goods or services. These activities are reported in the City's Enterprise Funds.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Capital assets are reported in the government-wide statements at historical cost. Capital assets include land, improvements to land, buildings, building improvements, vehicles, machinery, equipment, library collection, infrastructure and all other tangible or intangible assets that are used in operations and have initial useful lives beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally can be preserved for a significantly greater number of years than most capital assets.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

## Note 1 - Summary of Significant Accounting Policies - Continued

#### **Basis of Presentation - Fund Accounting**

Capital assets that are being depreciated are reported net of accumulated depreciation in the statement of net assets. Capital assets that are not being depreciated, such as land, are reported separately.

Capital assets are depreciated over their estimated useful lives. Depreciation expense is reported in the statement of activities by allocating the net cost over the estimated useful life of the asset. Assets are depreciated on an individual basis for equipment and buildings. Roads are depreciated as a class with each class containing items based on their date of construction or reconstruction. Sidewalks are depreciated by class with each class containing items based on the year of construction.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

#### Governmental Funds

The City reports the following major governmental funds:

#### **General Fund**

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# Note 1 - Summary of Significant Accounting Policies - Continued

#### Governmental Funds - Continued

#### Major and Local Street Funds

The Major and Local Street Funds are special revenue funds used to account for the repairs, maintenance and construction of the City's major and local streets as identified by the State of Michigan Department of Transportation.

#### Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

#### Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds).

#### Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

In addition, the City reports on the following fund types:

#### <u>Proprietary Funds</u>

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Aquatic Center, Golf Course Funds and the City's Internal Service Funds are charges to customers for sales and services. Operating expenses for the Enterprise Fund and Internal Service Funds include the cost of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### **Proprietary Funds** - Continued

The following Proprietary Funds are reported on:

#### **Enterprise Funds**

Enterprise Funds are used to account for City operations which are similar to those often found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

#### **Internal Service Funds**

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City or other governments, on a cost-reimbursement basis.

The City reports the following major proprietary funds:

#### **Water Fund**

The Water Fund accounts for the operation and maintenance of the City's water supply system, capital additions and improvements.

#### Sanitary Sewer Fund

The Sanitary Sewer Fund accounts for the operation and maintenance of the City's sewage disposal system, capital additions and improvements.

#### Sanctuary Lake Golf Course Fund

The Sanctuary Lake Golf Course Fund accounts for the operations of the new 18-hole links style course with practice facility.

#### Fiduciary Funds

#### Trust and Agency Funds

Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds of the City of Troy. These include Pension Trust Funds and an Agency Fund. Pension Trust Funds are accounted for in essentially the same manner as Proprietary Funds, since capital maintenance is critical. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# Note 1 - Summary of Significant Accounting Policies - Continued

#### **Basis of Accounting**

Basis of accounting refers to <u>when</u> revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the <u>timing</u> of the measurements made, regardless of the measurement focus applied.

All governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available. Revenues are generally considered available when they are received in cash (unless legally restricted to some future period) or when earned and expected to be collected soon enough after year end to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Significant revenues susceptible to accrual include reimbursement grants, state shared revenues and charges for services.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred provided the liability normally would be liquidated with expendable available financial resources. The major exception to this general rule is principal and interest on general long-term debt which is recognized when due.

Certain indirect expenditures are included in the program expense reported for individual functions and activities.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus. This means that generally only current assets and current liabilities are included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financial uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

All Proprietary Funds, Pension Trust Funds and Agency Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred. Unbilled Water and Sewer Fund utility service receivables are recorded at year-end.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### **Basis of Accounting - Continued**

All Proprietary Funds and the Pension Trust Funds are accounted for on a cost of services or "economic resources" measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

The City applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

#### **Budget Information**

The City is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (the Uniform Budgeting Act). The following is a summary of the requirements of this Act according to the State Treasurer's "Bulletin for Audits of Local Units of Government in Michigan" dated April 1984:

- 1. Budgets must be adopted for the General Fund, Special Revenue Funds, and Debt Service Funds.
- 2. The budgets must be balanced.
- 3. The budgets must be amended when necessary.
- 4. Public hearings must be held before budget adoptions.
- 5. Expenditures cannot exceed budget appropriations.
- 6. Expenditures must be authorized by a budget before being incurred.

The City adopts its budget by function, which is in accordance with the State's legal requirement and is the level of classification detail at which expenditures may not legally exceed appropriations.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# Note 1 - Summary of Significant Accounting Policies - Continued

#### **Budget Information** - Continued

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

- On or before the third Monday in April, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1<sup>st</sup>. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing on the budget is held before its final adoption.
- 3. As provided for by the City Charter, on or before the third Monday in May, the budget is legally adopted and by resolution designates the sum to be raised by taxation.
- 4. The City Manager is authorized to transfer budgeted amounts within budgetary functions; however, any revisions that alter the total expenditure of any budgetary function must be approved by the City Council.

Budget amounts of the revenues and expenditures presented for the Governmental Funds are a summarization of the budgeted amounts as originally adopted or as amended by the City Council. Individual amendments were not material in relation to the original appropriations that were adopted, for the General, Special Revenue, or Debt Service Funds. Budget appropriations lapse at year end. During the current year, the budget was amended in a legally permissible manner. Budgets have been prepared on a basis consistent with generally accepted accounting principles (GAAP).

The City Council adopts an annual budget for the Capital Projects Fund, even though it is not required under the Uniform Budgeting Act and adheres to the same requirements for Governmental Funds.

### **Encumbrance Accounting**

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation is utilized in the Capital Projects Fund. Encumbrances outstanding at year end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### **Cash and Investments**

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

The City is authorized by Michigan Public Act 20 of 1943 (as amended) to invest surplus monies (of nonpension funds) in U.S. bonds and notes, domestic certificates of deposit, certain commercial paper, U.S. government repurchase agreements, bankers acceptances, mutual funds and investment pools that are composed of authorized investment vehicles.

The Pension Trust Fund investments are authorized by Michigan Public Act 485 of 1996 to invest in certain reverse repurchase agreements, real estate leased to public agencies, stocks, diversified investment companies, annuity investment contracts, mortgages, certain state and local government obligations, and certain other specified investment vehicles.

Investments are stated at fair value.

#### **Inventory**

Inventory is stated at cost determined on a first-in, first-out basis which approximates market value. Inventories in the Governmental Funds are recorded as an expenditure when the inventory item is consumed. Inventories are equally offset by a fund balance reserve which indicates that such amounts do not constitute "available spendable resources".

#### Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2004, are recorded as prepaid items.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### **Capital Assets**

Capital assets, which include property, buildings, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Assets Classification	Estimated Useful Life
Buildings	50 years
Water and sewer transmission and	
distribution system	50 years
Service connections	20 years
Infrastructure	20 - 25 years
Land improvements	10 years
Building improvements	20 years
Golf course equipment	3 - 10 years
Furniture and fixtures	3 - 10 years
Vehicles and miscellaneous equipment	2 - 20 years

NOTES TO FINANCIAL STATEMENTS
[UNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### Accrued Vacation and Other Compensated Absences

The City maintains an Internal Service Fund to account for the accumulation of resources for, and the payment of, vacation, compensatory time, holiday and sick pay. Earned but unpaid vacation pay is fully accrued in the Compensated Absences Fund, as it is due during the fiscal year subsequent to the statement of net assets date.

The City charges departments incurring payroll costs for vacation pay benefits as they are earned on a percent of payroll basis and transfers related proceeds into the Compensated Absences Fund to pay for eventual benefits to employees. Accumulated unpaid vacation pay due to the employees of the City at June 30, 2004, was \$2,359,117.

All other compensated absences which are currently due are also accrued in the Compensated Absences Fund since it has been earned by the employee as of the statement of net assets date.

The Compensated Absences Fund also includes compensatory holiday and sick pay.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 1 - Summary of Significant Accounting Policies - Continued

#### **Long-Term Obligations**

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund-type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts and issuance costs are reported as debt service expenditures.

#### Fund Balance/Equity

Reservations of fund balance indicate that a portion of the fund balance that is not appropriable for expenditures or is legally restricted for specific future use. Designations of fund balance indicate plans for future financial resources utilization.

#### Net Assets Adjustments

The adjustments to net assets reflects a reclassification of \$800,000 from amounts previously included in long-term debt into net assets in governmental activities. Also an adjustment was made to net assets to reflect \$1,652,835 of expenditures relating to a reimbursement agreement entered into by the Component Unit from prior years. This adjustment results in a temporary negative fund balance for the Component Unit, however, future incremental tax revenue will be obtained to fund the obligation.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 2 - Stewardship, Compliance and Accountability

#### **State Construction Code Act**

The City oversees building construction, in accordance with the State Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs. A summary of the current year activity and the cumulative shortfall generated since July 1, 2001 is as follows:

Shortfall at July 1, 2003		\$	(1,027,685)
Current year building permit revenue	\$ 1,544,550		
Related expenses:			
Direct costs	1,935,449		
Estimated indirect costs	 <u> 154,836</u>		
Total construction code expenses	2,090,285		
Net shortfall for the year ended June 30, 2004			(545,735)
Cumulative shortfall at June 30, 2004		<u>\$</u>	(1,573,420)

#### Note 3 - Deposits and Investments

The City Council has authorized those responsible to invest City monies to purchase any type of prudent investments, within the guidelines set forth by the Michigan Department of Treasury. However, no more than fifty percent of the City's total monies, with the exception of the Employee Retirement, and Fire Incentive may be invested in commercial paper at any given time. The City has not been involved in any reverse-repurchase agreements during the year.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 3 - Deposits and Investments - Continued

The City's deposits and investments at June 30, 2004 are included in the financial statements under the following classifications:

		vernmental Activities		iness-Type Activities		Fiduciary Funds	 Total
Cash and cash equivalents	\$	46,017,980	\$	18,778,595	\$	12,493,984	\$ 77,290,559
Investments		40,020,128	<u></u>	14,773,492	<u>.                                      </u>	156,995,377	 211,788,997
Total deposits and investments	<u>\$</u>	86,038,108	<u>\$</u>	33,552,08 <b>7</b>	<u>s</u> .	169.489.361	\$ 289,079,556

#### **Deposits**

At year end, the carrying amount of the City's deposits was \$77,290,559 consisting of cash and cash equivalents. The bank balance was \$79,824,945. Of the bank balance, \$1,700,000 was covered by Federal Depository Insurance. The remainder of the bank balance was uninsured and uncollateralized.

The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the City evaluates each financial institution it deposits City funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

#### <u>Investments</u>

The City's investments are categorized to give an indication of the level of risk assumed by the entity at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the City or its agent in the City's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counter party trust department or agent in the City's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counter party, or its trust department or agent but not in the City's name.

# **Special Assessment Bonds**

In the event that special assessment collections are insufficient to meet debt service costs of such issues, the City has pledged its full faith and credit as additional security for payment of related principal and interest.

## NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# Note 8 - Long-Term Debt - Continued

#### Defeased Debt

## GENERAL OBLIGATION UNLIMITED TAX BONDS SERIES 2000 COMMUNITY CENTER AND RECREATIONAL FACILITIES

On June 30, 2004, the City of Troy deposited from funds on hand, the amount of \$8,702,518 into the 2000 Community Center and Recreational Facilities Escrow Fund to defease to maturity the following:

October 1,	Interest <u>Rate</u>	Principal <u>Amount</u>		
2004	5.875%	\$ 250,000		
2005	4.600	300,000		
2006	4.650	300,000		

and to defease to the first call date (October 1, 2007) 2000 Community Center and Recreational Facilities due October 1, 2020 in the principal amount of \$7,200,000. The funds in the Escrow Account were used to purchase State and Local Government Securities ("SLUGS") which are held in trust with the Escrow Agent Bank of New York Trust Company and provides sufficient monies, to meet the debt service payments until the bonds either mature or are callable. Therefore, the 2000 Community Center and Recreational Facilities Bonds are removed from the City's Government-Wide financial statements.

# 1995 MICHIGAN TRANSPORTATION FUND BONDS

On November 1, 2003, the City of Troy paid from funds on hand, the amount of \$2,044,612 to redeem the following outstanding 1995 Michigan Transportation Fund Bonds at a redemption price of 101% of the par value of each bond:

November 1,	Interest Rate	Principal <u>Amount</u>
2004	5.10%	\$ 250,000
2005	5.20	250,000
2006	5.20	275,000
2007	5.30	300,000
2008	5.40	325,000
2009	5.50	350,000

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# Note 9 - Net Assets/Fund Balance Reserves and Designations

Fund balance has been reserved and designated as follows:

## Reserve for Inventory and Prepaid Items

The General Fund has reserved fund balance for inventory and prepaid items in the amount of \$972,200 representing the portion of the fund balance that is not available for other future expenditures.

#### Reserve for Debt Service

The fund balance of \$4,207,528 in the City's Debt Service Funds, is considered reserved for debt service in accordance with City accounting policy.

#### Reserve for Encumbrances

The City has recorded a reserve for encumbrances of \$815,189 in the Capital Projects Fund. These reserves represent outstanding purchase commitments at June 30, 2004.

## Reserve For Construction and Improvements

Related amounts have been reserved as a result of contractual commitments, or due to the limited purpose for which a fund has been established, as follows:

Nonmajor Governmental Funds Construction and improvements Project Commitments	\$ 155,772 5,206,808
	5,362,580
Capital Projects Fund Project Commitments Construction and improvements	4,0 <b>7</b> 2,070 232,238
	4,304,308
Total	\$ <u>9,666,888</u>

## NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

# Note 9 - Net Assets/Fund Balance Reserves and Designations - Continued

# **Reserve for Pension Benefits**

The related amount reserved in the Fiduciary Fund reserve is largely comprised of equity recorded in the Pension Trust Fund. In addition, equity is set aside to pay for sick pay and vacation pay in the Internal Service Funds.

# Net Assets/Fund Balance

Net assets have been reserved for (a) debt service, based upon bond indenture agreements and the City's understanding that bond proceeds generated by these Proprietary Funds are only to be spent on specified construction or the retirement of related debt, (b) replacements and extensions based upon bond indenture agreements or the limited purpose for which a fund was established, (c) employee fringe benefits based upon the limited purpose for which funds have been established, and (d) outstanding purchase order for motor equipment and supplies.

# **Unreserved Fund Balance**

The following is a summary of the unreserved fund balances of the Governmental Funds with management's designations:

	General	Major Streets	Local Streets	Capital Projects	Debt Service	Nonmajor

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 10 - Risk Management

The City has entered into a Public Entity Risk Pool with other Michigan units of government for its general liability, property damage insurance including auto and public officials liability, contractors equipment and workers' compensation. The City's maximum deductible for property coverage is \$11,000 per occurrence. The liability maximum deductible is \$500,000 per occurrence with an aggregate stop loss of \$1,000,000 per policy year for both property and liability.

The City accounts for transactions related to these risks in accordance with GASB No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", which states that a liability for claims must be reported if information prior to the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements, and the amount of the loss that can be reasonably estimated.

No settlements have exceeded insurance coverage during the last three years. The City has made no significant reductions in insurance coverage during the year. The City has received no indication that any significant losses exist at June 30, 2004, and thus no liability has been recorded.

Changes in the estimated liability for the past two fiscal years are as follows:

		ear Ended ine 30, 2004	Year Ended June 30, 2003		
Estimated liability - beginning of year	\$	1,788,773	\$	1,390,380	
Estimated claims incurred, including changes in estimates		495,908		1,234,123	
Claim payments	_	(853,594)	)	(835,730)	
Estimated liability - end of year	<u>\$_</u>	1,431,087	<u>\$_</u>	1,788,773	

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 11 - Litigation and Contingent Liabilities

#### Litigation

The City is a defendant to various claims, legal actions and complaints arising in the ordinary course of business. The City of Troy denies the allegations and plans a vigorous defense. In the opinion of legal council, all such matters as indicated above are adequately covered by insurance, or if not so covered, are without merit or of such kind, or involve such amounts that an unfavorable disposition would not have a material effect on the financial position of the City.

#### **Condemnations**

The City of Troy has exercised its condemnation rights under Michigan law and has awarded the affected property owners a monetary settlement for their property. Certain of these property owners have contested the settlement amount and have subsequently filed suit. The amount of final settlements cannot be determined and has not been recorded in the financial statements.

#### Tax Appeals to the Michigan Tax Tribunal

The City has several outstanding property tax assessment appeals totaling approximately \$65,479,500 (taxable values) to the Michigan Tax Tribunal. If the City is not successful with a portion of these appeals, the City of Troy's share of the tax to be refunded would be the levied rate (approximately \$10 per thousand of assessed value) plus interest. The amount of refund (if any) cannot be determined as of June 30, 2004.

# NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 12 - Property Taxes

Property taxes are recorded on the modified accrual basis of accounting and are levied, and become a lien on July 1st on the taxable valuation of the property located within its boundaries as of the preceding December 31st. Taxable value is determined by the prior years taxable value plus 5% or the Consumer Price Index which ever is less, starting with the 1994 state equalized value as the base taxable value. Assessed values are equalized by the State, to closely approximate fifty percent of estimated current market value. The final taxable value of real and personal property subject to property tax within the City for the fiscal 2003-2004 levy was \$4,978,263,437. The City's operating tax rate was 6.25 mills for the same year with additional millages of .75, 1.62 and .83 levied to fund various types of debt service costs, capital outlay expenditures and refuse removal and disposal, respectively.

In addition to collecting their own taxes, the City also acts as collection agent for all overlapping governments and school districts within its boundaries, which includes seven school districts, two intermediate school districts, a community college, and Oakland County.

City taxes are received in one installment, collectible from July 1st to August 31st. Any real property taxes not paid by March 1st, following the due date, are reimbursed by the County. The County Treasurer takes over collection responsibility at that date, as well as delinquent personal property taxes.

The City is occasionally ordered by the Michigan Tax Tribunal to refund taxes already collected and recorded into revenue. It is, therefore, the City's policy to compensate for doubtful accounts, as well as refunds of taxes already collected through use of an allowance for doubtful taxes receivable and as a reserve of the general fund balance.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 13 - Retirement System and Plan

#### **Employee Retirement System**

The City of Troy, Michigan, under the authorization of the City ordinance, maintains an employee retirement system covering all full-time employees. The single-employer plan provides retirement benefits based on credited service time and average compensation with death and disability benefits, and under some circumstances, payments to dependents. Normal retirement age is 65 with provisions for early and late retirement. Participants under such plan are required to contribute a fixed percentage of their total compensation, with the City's contribution being an amount sufficient to cover current service costs and prior service costs which are being funded and charged to operations over ten years for pension benefits and fifteen years for healthcare benefits. The percent of wages required to be contributed by all employees participating in the primary plan was 1.0 to 4.0 percent as of June 30, 2004. The City's total payroll for the year ended June 30, 2004, was \$33,583,019. Included in this total was \$13,496,534 and \$16,378,945 of covered payroll for the employee retirement system and the employee defined contribution plan, respectively. \$3,707,540 represents payroll which was not covered by the retirement system or the defined contribution plan. Current membership in the system is as follows:

Group		December 31, 2003
Retirees and beneficiaries currently receiving benefits Vested terminated employees		182 19
Active employees:		
Fully vested		144
Nonvested	•	61

The employee retirement system financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

The City's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The normal cost and amortization payment for the year ended June 30, 2004 were determined using an individual entry-age actuarial funding method. Unfunded actuarial liabilities were amortized as a level percent of payroll on an open basis over a period of ten years for pensions and fifteen years for post-retirement healthcare.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 13 - Retirement System and Plan - Continued

#### **Employee Retirement System - Continued**

For the year ended June 30, 2004, contributions totaling \$1,827,567 (\$1,481,507 employer and \$346,060 employee) were made in accordance with contribution requirements determined by an actuarial valuation of the plan as of December 31, 2002, which was net of the amortization of assets in excess of unfunded actuarial accrued liability. Employer and employee contributions were based on 11.0 percent and 2.6 percent, respectively, of covered payroll.

Significant actuarial assumptions used include (a) a 6.5 percent investment rate of return, (b) projected salary increases of 4 percent per year compounded annually, attributable to inflation, additional projected salary increases ranging from .2 to 4 percent per year, depending on age, attributable to seniority/merit and the assumption that benefits will not increase after retirement. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a five year period.

The City provides certain healthcare benefits for retired employees in accordance with the bargaining groups agreements and other requirements. Substantially all of the City's employees may become eligible for those benefits if they reach normal retirement age while working for the City. The City's contribution for healthcare benefits is accounted for within the retirement system. The employers contribution of \$1,372,106 was attributable to healthcare benefits. This contribution represented 4.6 percent of total covered payroll during the current year. During the current year, healthcare benefits paid for retirees totaled \$1,180,792.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 13 - Retirement System and Plan - Continued

#### **Incentive Plan for Volunteer Firefighters**

The City of Troy has a noncontributory discretionary incentive plan established by resolution of the City Council covering its volunteer firefighters. The single-employer plan benefits are determined based on annual contribution amounts for each year of incentive service. The normal cost and amortization payment for the year ended June 30, 2004 was determined using an individual entry age funding method. At December 31, 2003, the benefit payment amount was \$498 per year for incentive service. Participants are eligible for payments at age 55 with ten or more years of volunteer service, age 50 with 25 years of service or 30 years of incentive service regardless of age. The City's contribution to the plan for the year ended June 30, 2004, was \$623,348. The volunteer firefighters are not paid any remuneration for their service. Unfunded actuarial liabilities were amortized as a level dollar amount on a closed basis. The amortization period is 25 years.

Group	<u>December 31, 2003</u>
Retirees and beneficiaries currently receiving benefits	63
Vested terminated employees	26
Active employees:	
Fully vested	89
Nonvested	82

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 13 - Retirement System and Plan - Continued

#### Incentive Plan for Volunteer Firefighters - Continued

Significant actuarial assumptions used include a 6.5 percent investment rate of return. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four year period.

See the required supplementary information section of the financial statements for the summaries of Schedule of Funding Progress and Schedule of Employer Contributions.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2004

#### Note 14 - Defined Contribution Plan

The City maintains a defined contribution plan (DCP), which qualifies under the Internal Revenue Code Section 401(a). Classified, Exempt and Fire Staff Officers in the City's Employees Retirement System were given the option to transfer to the DCP by December Employees who elected to transfer to the DCP had their individually 31*,* 1997. actuarially determined earned retirement benefits in the Employees Retirement System determined as of the date of election to transfer to the DCP. In 1998, the City afforded the option to AFSCME members of the Employees Retirement System to elect a transfer to the DCP, of which 41 employees elected such transfer. In 1999, the City afforded the option to MAP members of the Employees Retirement System to elect a transfer to the DCP, of which 29 employees elected such transfer. In 2000, the City afforded the option to TCOA members of the Employees Retirement System to elect a transfer to the DCP, of which 20 employees elected such transfer. In 2002, the City afforded the option to TPOA members of the Employees Retirement System to elect a transfer to the TCP of which 19 employees elected such transfer. The DCP is also in effect for all new full-time employees. Total membership in the DCP as of June 30, 2004 was 269.

The DCP maintains a schedule of vesting as follows: participants who transferred from the Employees Retirement System are fully vested. For new hires the following schedule applies: 50% vested after 3 years, 75% vested after 4 years and 100% vested after 5 years. Employees contribute 3 to 5 percent of their salary, while the employer contributes 11 to 13 percent. All employees are able to contribute up to 10 percent of their salary on a voluntary after-tax basis. All contributions are remitted to a third-party plan administrator.

The DCP was established by City Council resolution and any amendments to the plan would require City Council approval.

The City's payroll for employees covered by the DCP for the year ended June 30, 2004, was \$16,378,945, and the City's total payroll was \$33,583,019. The required contributions, which matched those actually made, were \$697,596 by employees and \$1,922,653 by the City, representing 4.3 percent and 11.7 percent of covered payroll, respectively.

Analysis of the dollar amounts of actuarial value of assets or actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of the system's funded status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan. The unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of covered payroll approximately adjusts for the effects of inflation and aids analysis of the progress being made in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the plan.

COMBINING

AND

**INDIVIDUAL** 

**FUND** 

**STATEMENTS** 

#### **GOVERNMENTAL FUNDS**

# NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

#### **Downtown Development Authority Fund**

This fund represents an authority established for the purpose of providing for the construction and financing of necessary improvements to prevent further deterioration of the development area while preserving and promoting economic growth for the benefit of all taxing units within and benefited by the development area.

#### Refuse Fund

This fund has been established to account for property tax revenues restricted for rubbish and garbage collection and service charges for recycling.

#### Community Development Block Grant

This fund accounts for grant revenues from the Department of Housing and Urban Development to be used for residential and other capital improvements.

## **Cemetery Perpetual Care Fund**

This fund was established to invest the proceeds from the sale of burial plots and utilize their investment income in the operations of the City-owned cemeteries.

#### **Budget Stabilization Fund**

This fund has been created for the following purposes: a) to cover a General Fund deficit; b) to prevent a reduction in the level of public services; and c) to cover expenses arising because of a natural disaster.

#### **GOVERNMENTAL FUNDS**

# NONMAJOR DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources when the government is obligated in some manner for the payment.

#### **Proposal A Debt Service Fund**

This fund was created to account for a voter approved bond issue in the amount of \$11,000,000 for various road improvements.

#### **Proposal B Debt Service Fund**

This fund was created to account for a voter approved bond issue in the amount of \$18,000,000 for various public safety and city hall facilities.

#### Proposal C Debt Service Fund

This fund was created to account for a voter approved bond issue in the amount of \$18,000,000 for renovation and construction of a community center and park land acquisition.

#### **Downtown Development Authority Debt Service Fund**

This fund was created to account for debt issued for infrastructure and facilities within the downtown development district.

#### Major Streets Debt Service Fund

This fund was created to account for bonded indebtedness on Phase #1 of the Big Beaver Road Project.

# NONMAJOR BUSINESS-TYPE FUNDS

**ENTERPRISE FUNDS** 

Enterprise Funds are used to account for services provided to citizens financed primarily by user charges and operated in a manner similar to private business enterprises, where the periodic measurement of net income is deemed appropriate for capital maintenance, public policy, accountability or other purposes.

#### **Aquatic Center Fund**

The operation of the City's Aquatic Center is accounted for in this fund.

#### Sylvan Glen Golf Course Fund

This fund accounts for the operations of the Sylvan Glen Municipal Golf Course.

#### **INTERNAL SERVICE FUNDS**

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the government, on a cost reimbursement basis.

#### **Compensated Absences Fund**

The expenses of accumulated sick pay and vacation pay are recorded in this fund.

#### **Unemployment Compensation Fund**

This fund accounts for the charges to other departments and the expenses to provide unemployment compensation insurance.

#### Custodial Services Fund

This fund accounts for the custodial services provided to all City owned buildings.

#### **Information Technology Fund**

This fund accounts for the charges to other departments and the expenses to provide computer services.

#### **Motor Equipment Fund**

The rental charges of City-owned equipment to other City departments are accounted for in this fund.

#### Workers' Compensation Fund

The Workers' Compensation Fund was established to account for pooled insurance expenses.

#### FIDUCIARY FUNDS

Trust Funds are used to account for the assets held by the City in a Trustee capacity. Agency Funds are used to account for assets held by the City as an agent for individuals, organizations or other governments.

#### Employees' Retirement Fund

This fund is used to account for the accumulation of resources for pension benefit payments to qualified general and public safety employees.

## **Discretionary Fire Incentive Reserve Fund**

This fund is used to account for the accumulation of resources for incentive payments to qualified volunteer firefighters.

#### **Agency Fund**

This fund is used to account for taxes collected on behalf of other governmental units.

Proposal "A" as passed by the citizens of Michigan, took effect in 1994. This Proposal created two new categories for tax and assessment purposes (taxable value and capped value). Assessed value was unchanged by the Proposal, and remains at 50% of the market value of a property.

Taxable value is the amount upon which millage rate (taxes) are now levied. Taxable value is defined as the lesser of assessed value or capped value.

Capped value is calculated by taking the previous year's taxable value, minus any losses in value, multiplied by the inflation rate or 5% (whichever is less) plus any new construction.

This Proposal also mandated that the taxable value and assessed value were to be equal for the year following a transfer of ownership (as defined by the statutes), and then the capping process would begin anew.

The taxable and assessed valuation of taxable property is determined as of December 31st of each year.

The statutory debt limits of net bonded indebtedness incurred for all public purposes shall not at any one time exceed 10% of the assessed valuation of taxable property in the City (\$6,188,084,256), except that this limit may be exceeded by 3/8ths of 1% in case of fire, flood or other calamity. This limitation does not include bonds issued in anticipation of the payment of special assessments, nor bonds issued pursuant to court order for sewage or garbage disposal systems.

The Michigan State Bond Act provides that the total debt in special assessment bonds, which would require that the City pledge its faith and credit, shall not exceed 12% of the assessed valuation of taxable property of the City, nor shall such bonds be issued in any calendar year in excess of 3% unless voted.

#### TAX INFORMATION

Taxes Due:

July 1st

Payable:

City and fifty percent (50%) of school taxes are due and payable July 1st at the office of the City Treasurer. (County taxes and the remaining fifty percent (50%) of school taxes are due and payable December 1st).

Penalties and Interest for Delinquency:

All City taxes are to be paid on or before the first day of September without additional charge. All City taxes paid after the first day of September shall be subject to a penalty of four percent (4%) and interest at the rate of one-half of one percent (.50%) per month for each and every succeeding month or fraction there of that the same remains unpaid. Commencing March 1st, taxes on real property are collected through the County Treasurer of Oakland County, who adds and retains a collection fee of four percent (4%), and in addition adds interest at the rate of one percent (1%) per month or fraction there of to the date of payment.

Lien on Property:

Unpaid taxes, together with all charges thereon, become a continuing lien on the property assessed. The General Tax Law provides for disposition at public sale of real estate delinquent for taxes as follows:

Date of Sale	Delinquent Tax  Properties to be Sold
July 2005	Year 2002
July 2006	Year 2003

State Land Sale:

The General Property Tax Act, Public Act 206 of 1893, as amended, requires the County Treasurer to foreclose on real property for failure to pay delinquent property taxes. On March 1st, following the year taxes went delinquent a \$175.00 fee and a \$18.00 recording fee will be added to the parcel. The interest rate on the unpaid balance increases to 1.5% per month retroactive to the previous March 1st. In February properties that are delinquent for two years will be taken to the Circuit Court for foreclosure. Property owners have 21 days from the foreclosure judgment date to redeem the property by paying all taxes, penalties, interest and fees. After 21 days the State is granted first right of refusal to purchase property at the greater of minimum bid or fair market value. The City has second right of refusal to purchase property for a public purpose at the minimum bid price. The County may purchase property at the minimum bid price following the local unit decision not to purchase. Properties that are not purchased will be available for land sale. The land sale will be a live auction. Parcels will be sold as-is at time of auction. Minimum opening bid will be the sum of all delinquent taxes, including all interests, penalties, fees and expenses.

SINGLE AUDIT SECTION

# To the Honorable Mayor and City Council of the City of Troy, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Troy, Michigan as of and for the year ended June 30, 2004, and have issued our report thereon dated September 17, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Troy, Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

# Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Troy, Michigan's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the City Council, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

DOEREN MAYHEW

September 17, 2004 Troy, Michigan

To the Honorable Mayor and City Council of the City of Troy, Michigan

#### **Compliance**

We have audited the compliance of the City of Troy, Michigan with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2004. The City of Troy, Michigan's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Troy, Michigan's management. Our responsibility is to express an opinion on the City of Troy, Michigan's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Troy, Michigan's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City of Troy, Michigan's compliance with those requirements.

In our opinion, the City of Troy, Michigan complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2004.

## Internal Control Over Compliance

The management of the City of Troy, Michigan is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City of Troy, Michigan's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the City Council, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2004

### Vote 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance and federal cost-reimbursement contracts of the City of Troy, Michigan. The City of Troy, Michigan receives federal awards directly and indirectly through pass-through entities.

The federal program expenditures included in the accompanying schedule are presented on the modified accrual basis of accounting. The modified accrual basis of accounting is also used for the general purpose financial statements. The information in this schedule is presented in accordance with requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

### Note 2 - Major Programs

Major programs are identified in the Summary of Auditor's Results Section of the Schedule of Findings and Questioned Costs.

# COMMENTS AND RECOMMENDATIONS MEMORANDUM

JUNE 30, 2004

DEC 2 7 2004
12/22
LOCAL AUDIT & FINANCE DIV.

September 17, 2004

Members of the City Council City of Troy, Michigan 500 West Big Beaver Road Troy, Michigan 48084

Members of the City Council:

We have recently completed an audit of the financial statements of the City of Troy, Michigan for the year ended June 30, 2004. Our audit was made primarily for the purpose of expressing our opinion on these statements and, accordingly, did not encompass a detailed review of systems, procedures and internal controls. However, during our audit, we observed certain accounting areas where we believe improvements can be effected, and we offer the enclosed comments and recommendations memorandum for your review.

The accompanying memorandum is not based upon a complete survey of all phases of operating and executive controls; it does, however, direct management's consideration. We appreciate that the ultimate objective of management is to achieve maximum control at a minimum cost. We believe that consideration of the recommendations enumerated in this memorandum are compatible with that objective.

After you have reviewed our recommendations, we will be pleased to discuss the contents with you and to assist in the implementation of any items set forth herein.

DOEREN MAYHEW

## COMMENTS AND RECOMMENDATIONS

# I. CURRENT YEAR RECOMMENDATIONS

### 1. FINANCE DEPARTMENT ASSISTANCE

We commend the City's Finance Department for its continued cooperation and assistance during this past year's audit. We realize the time commitment required by the Finance Department during the audit is significant, but with the help from Jim Nash and John Lamerato, the efficiency of the audit process continues to be improved.

### 2. CAPITAL ASSETS

With the implementation of GASB No. 34 in the previous year, it was required that the City make a determination of value on the infrastructure assets. We recommend that the City review and assess the condition and valuation of these assets on a periodic basis.

# II. PRIOR YEAR RECOMMENDATIONS

# 1. TRUST AND AGENCY FUND - MISCELLANEOUS DEPOSITS

In the prior year, as part of our testing of the deposit accounts in the Trust and Agency Fund, we noted that the Miscellaneous Deposit Account included various amounts or deposits that have been on hand for a long period of time.

### <u>Status</u>

During the current year testing, we noted that some of the oldest deposits were removed from the account, however, several old accounts still remain. The City is in the process of investigating the status of these deposits.

We continue to recommend that the City Finance Department review the Miscellaneous Deposit Account. This review would also entail setting up policy and guidelines for the revenue recognition of deposits after a limited number of years have expired.
